

Najua Medina

November 6, 1971—March 26, 2011

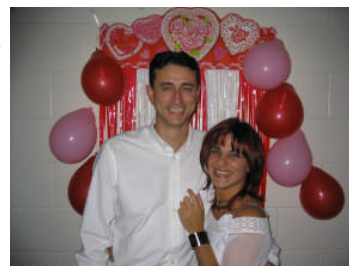

The Motorcycling Community has lost one of its great friends. Najua Medina, a dear friend to all of us at Rally Connex passed away surrounded by her family after surgery to repair a brain aneurysm. Predi assured us all that she went peacefully without pain. She was, like all of us, a supporter of off-road motorcycling. She was a very accomplished rider and a fierce advocate for the sport.

Our thoughts and prayers go out to her husband Predi and the rest of her family.

Najua & Predi have been working with a charitable organization called WINGS FOR LIFE.

The Wings for Life Spinal Cord Research Foundation is a privately funded non-profit organization which follows the principal aim of promoting research worldwide in order to expedite scientific and clinical progress towards a putative cure for Spinal Cord Injury. You can read more about Wings for Life at <http://wingsforlife.com>. If you wish, memorial donations can be made directly from that site.

Najua We know you are in Jannah (islamic word for heaven/paradise). Bless you.
